MORE INFORMATION

COLOUR & STYLE

Furnishing, wall covering and fabric samples, mood boards, visuals, design briefs can help discussion so Julia can understand the look you want. Or you can simply say "we want a cool bright feel" or "it is moody look with dark reds and golds". You can discuss images in the Ideas Library and download them to show clients.

EXACT COLOUR MATCHING

Pantone colour system for printing on paper can identify exact requirements. But it is not available as artist's paints, so matching will be as close as possible by eye.

SAMPLES

After discussion on colour & style, Julia can make ideas for you on aluminium and send by email or courier for client approval. No charge is made for this service.

SPECIFICATION

Paintings are made of 1.5mm flat aluminium sheet. If under 125cm, timber batten support frames are fixed to the back to hold sheet rigid and for wall fixings. If over 125cm the support frame is hollow aluminium box frame with keyholes cut. Depth off the wall is usually 20mm but it can be more. Edges of paintings can be double folded for a box like appearance similar to a canvas. If edges are folded, corners are neatly mitred. They are usually hung without any decorative frame. See page 4.

FINISH

Matt finish is vulnerable to greasy marks. If hard wear is expected please request a gloss. Like canvas or glass, paintings and especially corners can be damaged. Please treat with care. Protective wrappings are provided. Please handle with gloves.

HUMIDITY

For humid conditions by a Spa or pool please advise in advance and a protective layer can be added. Paintings on aluminium are not suitable for outdoors.

INSTALLATION

Instructions are provided. The wall is drilled and wall plugs are fitted. Screws in the wall plugs project slightly. Paintings have a support frame on the back which allow for fixings. The back is marked TOP, 'made in UK' and with artist's name & date. Security fixings can be provided on request. A locking tool will be provided and must be kept on site to be able to move paintings. See page 4.

CLEANING

Paintings can be cleaned with a damp soft dry cloth. Small spots and stains can be removed with dilute mild detergent. Abrasives of any kind must never be used.
